## Ballot On Bonds

### GOP In Hassle At Convention

Randall County Republican convention developed into a verbal donnybrook Saturday night as County Chairman J. Evetts Haley swapped charges with Chairman-elect Dick Brooks.

Several delegates even stalked out of convention hall at Rex Reeves Elementary School while Haley was delivering his valedictory.

Brooks, Amarillo, beat Haley out for the county chairmanship by a margin of 23 votes in the Republican primary May 4.

Haley also accused Republican County Commissioner Bill Butler of trying to elect a Democrat to the office of county judge.

The Canyon author and historian may have lost in popular voting in the primary, but there was never any doubt who was in charge of the county convention.

As incumbent county chairman, he gavelled the convention to order and was promptly named permanent chairman, his nomination having been seconded by Brooks.

Mrs. E. J. Larson of Canyon was elected permanent secretary.

Haley appointed Mrs. Mary

Glaze of Amarillo chairman of the committee on state convention delegates. Dr. John Whinnery of Amarillo was named parliamentarian.

Mrs. Glaze submitted a slate of delegates. A motion was made and seconded to approve the slate. Then there was a request to be permitted to nominate delegates from the floor.

The chairman ruled the move out of order.

Robert Duncan from Precinct 20 called for a discussion after further objection had been made by Brooks. "I'm not so sure that we knew we wouldn't be able to place names from the floor," said Eddie Baird, asking that the delegation report be turned down.

A vote by delegations gave (See GOP, page 5)

### American Delegates Elected

Randall County American Party Saturday elected 18 delegates to the state convention to be held June 8 in Fort Worth.

Present plans call for a special bus from Amarillo to the convention.

The American Party held its convention in the district court room in Randall County Court House.

The convention heard a plea for funds. The Potter-Randall County headquarters is located at Eighth and Adams in Amarillo.

Randall County Chairman Hubert Clark said the party has more than 90,000 registered voters in the state and that George Wallace, the party's candidate for President, is assured a place on the Texas ballot in November.

"Governor Wallace was pleased with the report and we feel we will have no trouble (See AMERICAN, page 3)

### Reapportionment Talked By Court

First move to reapportion Randall County commissioner precincts in a manner that would give Amarillo three county commissioners and the remainder of the county one was made Monday at a meeting of commissioners court.

A tentative plan was submitted to the court by County Judge Carroll Brown. He emphasized that his plan was not submitted for adoption by the court but was placed as a suggestion only.

Brown's suggestion would apportion the county by voter population and would place a little more than 5,000 voters in two of the precincts and a just under 6,000 in the other two.

### Board Lays Down Code For Student

A code of student life for West Texas State University was approved Friday by the Board of Regents, Texas State Senior Colleges.

The code was drafted first by the student life staff and submitted to three groups for consideration before being submitted to the Board of Regents.

These groups were the Student Welfare Committee, composed of two deans, school nurse and physician, four faculty members, and three students appointed by the student body president; the four University academic deans; and the local chapter of the American Association (See CODE, page 5)

### Vacations To Begin

Summer vacations for students of the Canyon Independent School District will begin with the dismissal of students from classroom study after the day is completed May 23.

Teachers will return to the classrooms on May 24 to complete records ending the year. Elementary students, grades 1-5, will be issued report cards on the last day of school and report cards for other students will be processed and mailed early the next week.

### City Of Canyon In Promotion

The City of Canyon is participating in a proposed pilot program has been designed to attract tourists to stay in communities within the Panhandle of Texas.

Billboards noting Palo Duro Canyon State Park and the Panhandle Historical Museum will be erected along with a number of posters for service stations, restaurants and motel windows.

Theme of the promotional program, which will last three months, is "In The Land Of Coronado".

Cost for Canyon's participation in the program will be \$400.

### Baccalaureate At CHS Sunday

Baccalaureate services for Canyon High School seniors will be held Sunday at 8 p.m. in the CHS auditorium with Rev. Newton Starnes, pastor of the First Methodist Church, giving the main address.

CHS seniors will wear their graduation caps and gowns for the event which marks the end of school for 1968.

The program will open with

### Would Build New CJHS Facilities

Canyon Independent School District voters will decide Saturday on a \$1,350,000 bond issue for construction of a new junior high school building and airconditioning of Rex Reeves Elementary School.

Polls will open at 8 o'clock Saturday morning and will close at 7 o'clock Saturday evening.

Voters residing in county election precincts 5, 6, 9, 10, 11, 15, 19 and 20 will vote at Gene Howe Elementary School at 5180 Pico Street in South Amarillo.

Voters living in county election precincts 1, 2, 3, 4, 7, 8, 13, 16, 17 and 18 will vote at American Legion Hall in Canyon.

A. L. Crossland will be election judge at Legion Hall and Bill Harp will preside at Gene Howe.

Voters must meet certain requirements in order to cast ballots in the bond election. Any person living in the school district, who has rendered property for school tax purposes, who has lived in Texas one year, Randall County six months, the school district on the day of the election and who is a registered voter or has an exemption, may vote in the Saturday bond election.

If the bond issue passes, the funds will be used to construct a new junior high school building

on the present junior high school campus.

The school's present gymnasium on the north side of the present school plant will continue to be used. The new junior high school plant will provide facilities for about 1,000 students.

It will have approximately 30 classrooms, 700-seat auditorium, gymnasium and dressing rooms, cafeteria, homemaking department, library, special classrooms for art, reading and typing, restrooms, administrative and office area and parking and bus unloading areas.

The north gymnasium will be refurbished and the present homemaking department will be converted into dressing rooms. The present music and industrial arts building will be refurbished and airconditioned.

School superintendent Jerry Jacobs said school enrollment has increased from 1139 in 1956-57 to 2547 in 1967-68, an increase of 124 percent in 12 years.

Junior high school enrollment has increased from 285 to 676 (See BUILD, page 5)

### Amarillo Firm Is Low Bidder

An Amarillo construction company was low bidder Friday for 2,900 feet of storm sewer drainage line to be used here this summer by the City of Canyon.

Novak Construction Company, bidding in a field of five, said they would furnish the workmen and material at a cost of \$36,462. Construction, which is expected to begin in about three weeks, will be completed in about 75 days.

Bid figures among the five ranged from the Novak figure of \$36,462 to one totaling more than \$42,000.

Canyon voters approved \$200,000 in bonds April 2 for the 36-inch storm sewer drainage line and street improvements.

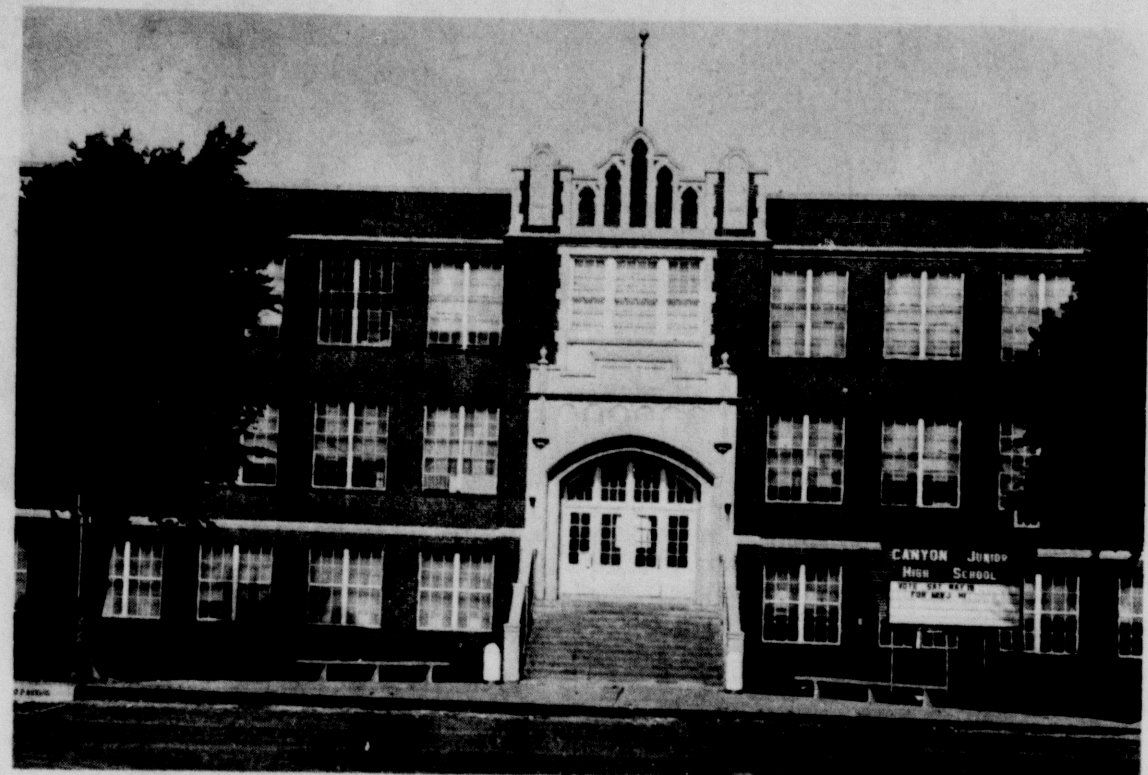

About \$37,000 of the \$200,000 was estimated as cost of the material and labor for laying the line.

### One Dead In E-Way Accident

Joe Billy Bogan, 48, of 927-A Bryan in Amarillo, was killed Tuesday evening when the automobile he was driving was in collision with another vehicle one-fourth mile north of the McCormick Road exit and the Canyon Expressway.

Randall County Justice of the Peace W. W. Hancock pronounced Mr. Bogan dead at the scene late Tuesday.

Lois Estell Clark, 47, of 817-B Alabama in Amarillo, a passenger in Mr. Bogan's car, was taken to Northwest Texas Hospital where her injuries are being treated (See DEAD, page 5)

If a \$1,350,000 school bond issue is approved by the voters Saturday, this old Canyon landmark will disappear to make way for a new junior high school building. This structure was erected in 1923.

### Country Sick Say SDS Speakers Talking Here

BY TROY MARTIN

Students for a Democratic Society is the largest radical left group in the country, Barthe Haille, Jr., Austin, who is styled as a Southwest regional traveler for the group, told a handful of West Texas State University students Tuesday

night.

The group met in the supper room of the Red Barn Restaurant. About 10 persons were present.

SDS has sought and been refused a charter to operate as a campus organization at West Texas State University.

Local leaders say each SDS chapter is autonomous but there appears to be at least some line of communication throughout the group. SDS members are reported to be in the forefront of agitation at Columbia University.

SDS is specifically against (1) The "imperialist" war in Vietnam, (2) The Selective

Service System, and (3) The "hierarchy" that controls higher education in the United States.

Leaders on the WT campus emphatically deny communist ties but admit that membership is open to members of the communist party.

However, SDS is described by (See COUNTRY, page 5)

### Randall Demos Back Connally

A resolution binding Randall County Democrats under unit rule at their state convention was passed Saturday over the objections of several party members.

The Democrats, meeting for their county convention, heard Richard Lindsey propose an amendment to the unit rule resolution which would instruct the county delegates to support only those candidates to the national convention which would

### WT Summer Session Set

First term of the summer session at West Texas State University will open June 3, with orientation for beginning freshmen. Registration in the Student Union Building will be conducted June 4, starting at 8 a.m.

Classes will begin June 5, and the first term closes July 11 with final examinations.

Second term registration is July 16, and the term closes Aug. 23. Summer convocation will be Aug. 22 at 8 p.m. in the Fieldhouse.

### Protest Fizzles In Spring Rains

An announced protest demonstration by a group of Negroes against a parade scheduled by members of a West Texas State University social fraternity failed to materialize Saturday.

Several WTSU Negro students indicated last Thursday they would protest the parade by Kappa Alpha members as the fraternity conducted its annual secession from the university.

Gary Puckrein, WTSU Negro student from New York who acted as spokesman for the Negroes, said last Thursday after the KA's postponed the parade because of rain, he would like to eliminate the WTSU administration's participation in the Old South Day and "come to a compromise".

A total of 42 protesters, about half of them Negroes and the others white, carried signs reading "The War Is Over--You Lost" and "To Hell With The Old South" last Thursday.

One of the demonstrators carried a sign Saturday. It was attached to a crutch, with two

endorse the Democratic presidential candidate regardless of whom he might be.

Noting that in 1952 the "titular head of the Democratic party supported the Republican presidential nominee", Lindsey said he wanted the county chairman to draw up an oath to support the Democratic nominees from "the top to the bottom of the ticket".

Chairman K. Burt Watson of Amarillo, who was elected over former county chairman David Matthis by a vote of 185-38, said what Lindsey was proposing was "not germane".

After Matthis proposed that each of the delegates be polled "one by one", Lindsey again began a discussion of the unit rule resolution but was again ruled out of order by Watson.

An earlier battle between the two Democratic factions erupted when Matthis declared that the county chairman had not posted a notice with the Randall County Clerk as to the time and place of the convention. Matthis said he wanted the point "reflected in the minutes".

After Watson said the issue (See DEMOS, page 3)

parallel black lines. A bystander said the sign signified equality.

Puckrein, who said he had a 1.5 grade average at WTSU, Thursday said he had visited "a couple of area towns" and saw the abuses of the Negro there.

In his hometown of New York, the Negro is allowed "a little more freedom but a lot have been suppressed and mistreated for a long time" Puckrein explained.

Noting that the "past was not good for everybody", Puckrein (See PROTEST, page 3)

True modesty is extremely rare and therefore precious; the pose of modesty is common and therefore cheap.

### Regents Give Nod To Degree

Permission to submit a proposal for a new master's degree program in junior college teaching to the Coordinating Board, Texas College and University System, was given West Texas State University Friday by the Board of Regents, Texas State Senior Colleges.

Four courses on the graduate level in education, called "Junior College Core Courses," will be added to the curriculum to make the new degree program possible. All other courses needed are already being offered at WTSU.

In other action, the Board upheld the dismissal of Dr. Alfred E. Kraus, Jr., as professor of physics and coordinator of physical sciences research at the Killgore Research Center; approved two new courses in geology; approved lease of University land to Shell Oil Company; and gave WTSU permission (See REGENTS, page 3)

A lone picket showed up Saturday across the street from the home of Dr. James P. Cornette as the Kappa Alpha Fraternity presented their mock secession document to Dr. Cornette. The equation marks on a white background atop a crutch was taken to signify black equality. A group of Negroes and whites on the West Texas State University campus were offended by the KA rites which included flying the Confederate flag and wearing Confederate uniforms. Sharpest protest arose over WT administration participation in the ceremonies.

A 48-YEAR-OLD man from Amarillo was killed near here Tuesday night in a two-car collision on the Canyon Expressway near McCormick Road. Funeral services are scheduled today, Thursday, at 4 p.m. in Amarillo for the crash victim, Joe Billy Bogan.

# FROM THE CANYON RIM

Students for a Democratic Society is doing its best to organize on the West Texas State University campus.

Its best hasn't been very good so far. Only 10 showed up for a dinner and gab fest at the Red Barn Tuesday night.

Local SDS leaders say each chapter is autonomous but Bartee Haille, Jr., and Martin Wigginton arrived here from Austin this week to preach the SDS gospel to a handful of disciples. Their very presence leads the discerning person to believe that there must be some link between the various chapters.

Leaders here describe the SDS movement as non-violent without communist ties. FBI Director J. Edgar Hoover says SDS receives support from the communist party.

The House Un-American Activities Committee goes even further. "Key leaders of the SDS have given open support to guerilla warfare in the US," says the HUAC.

US News & World Report says a leaflet prepared in Toronto, Canada, is reported to have been distributed to SDS chapters. The report says the leaflet contains instructions on how to make Molotov cocktails and incendiary time bombs.

US News says: Urging sabotage as the "next logical step toward obstruction and disruption of the US war machine," the leaflet says that it is ludicrous to think that demonstrations closing down an induction center for a few hours will really hurt Selective Service.

"On the other hand," the leaflet says, "is there anyone who doubts that a small home-made incendiary device with a timing mechanism planted in a broom closet at the Oakland induction center could result in fire and smoke damage to the entire

## Vote For The Future

Canyon's greatest asset is her citizens of tomorrow. Saturday Canyon School District voters will have an opportunity to make an investment in Canyon's future.

I doubt that there are many farmers or businessmen in the Canyon community who would want to use 1923 facilities or machinery in operation of their businesses. If they should try, I doubt that they would be over successful. Canyon Junior High was built in 1923 and is simply inadequate for a program of modern education.

Canyon school board has availed itself of some of the best professional advice obtainable in reaching its decision to place a construction bond issue before the voters.

The bond issue has been unanimously endorsed by the board of trustees, three of whom were returned to their posts on the board only last month with overwhelming votes of confidence.

Canyon Chamber of Commerce and its educational committee have endorsed the issue as have a number of Canyon women's clubs.

The Canyon News takes this opportunity to add its endorsement. Canyon children need a new junior high school building. We urge every voter in the school district to go to the polls Saturday and cast a vote for passage of the proposed construction bond.

versity, where buildings were taken over and faculty members held hostage. I cannot believe that such an organization is composed of innocent kids with youth's natural resentment for duly constituted authority.

... This country is locked in mortal combat with enemies who would destroy her. Under even the most liberal interpretation of international law, a nation has the right to protect itself against those who would do it ill by stealth and deceit.

It is about time for America to invoke the ancient retribution for those who toy with treason.

## Grad Dies Vietnam

Captain Ronald Shepard, graduate of West Texas State University and a former member of the Canyon News staff, was killed by enemy action last Thursday in Vietnam.

Captain Shepard was a member of the Reserve Officers Training Corps while in school here and during his senior year was in charge of the flag raising company at Buffalo Bowl football games.

Captain Shepard, 24 years old, was the son of Mr. and Mrs. E. L. Shepard of 3617 Rush in Amarillo. The parents were notified Sunday of their son's death.

An outstanding soldier, Captain Shepard was recently awarded the Bronze Star Medal for Heroism and the Vietnamese Cross of Gallantry with Silver Star.

He received the medals for rescuing two wounded soldiers under direct enemy fire in September of last year. He served as assistant battalion adviser to a Vietnamese unit and had been in Vietnam since last June.

He was graduated from Amarillo High School in 1962 and from West Texas State in 1966. He entered the service in February of 1967.

Survivors, other than the parents, included a sister, Mrs. T. C. Measles of Tulsa; a brother, Gary of Lubbock; and a grandmother, Mrs. R. C. Walker of Graham.

## Japanese will visit

The mayor of Minakami-machi, Japan will arrive here June 2 for a four day visit.

In a letter recently to Canyon Mayor Paul Lindsey, Mosaku Onozato, mayor of the Japanese city, indicated he would arrive here accompanied by a Mr. Shimizu and a Mr. Takenaga.

Onozato indicated he would like to meet with Mayor Lindsey, Dr. James P. Cornette, West Texas State University president, and the president of the Chamber of Commerce here.

Canyon established a "sister city" relationship with Minakami-machi, Japan last year and Dr. and Mrs. Cornette have visited in Japan.

"The purpose of our stay," Onozato said in his letter, "is to be favored with your kind guidance about the autonomy of your city, how your municipal assembly is carried on, education activities, public welfare, etc."

Onozato said he would give his honorary citizens of Minakami-machi. Lindsey had earlier sent Onozato a Texas flag.

Accompanying Onozato's letter is a picture of carp streamers which he plans to raise in ceremonies involving school children here.

"When I go, I will take with me something that is typical of this area as a gift for my summer hosts," she said. "When I come back, I will bring something from Sweden that is typical of that country for the local Lions--in addition to mementoes for my own collection."

Purpose of the summer student exchange program, according to Miss Waugh, is to develop and promote understanding between countries. She was one of 150 high school

## Heavy Rain Falls Here

Canyon received 2.38 inches of moisture since last Thursday--moisture that is expected to boost irrigated wheat and help grassland acreage.

Although dark clouds loomed overhead many of the days when the rain fell, no severe weather damage was reported in Canyon or Randall County.

Some light hail was reported to the east and south of Canyon during some of the rains, but no damages were apparent.

## Demos . . .

(Continued from Page 1) would not affect the validity of the convention, he explained the manner in which to settle the matter was to reject or remove the report of the committee from the minutes.

"I move," declared Matthis, "to reject the committee's report on the grounds that the delegates were not properly notified as to the time and place of this meeting." His motion was rejected by Watson following a close voice vote.

J. Pat Stevens attempted to amend the unit rule in a resolution endorsing Gov. John Connally as the Democratic's favorite son from Texas.

Stevens said Democrats were noted for being "free agents and free men" and therefore should not be bound by unit rule, but was voted out of order by Watson.

Edgar Sneed asked the Democrats to pass resolutions supporting public education, the national Democratic candidate for president, and requesting Randall County Commissioners to redistrict the voting precincts according to population.

Sneed said the party members should vote against the report of the resolutions committee until "the report includes redistricting of voting precincts in the county".

A division-of-the-house vote indicated 193 wanted to accept the resolutions committee report and 37 did not.

Other resolutions passed included asking that Randall County Commissioners redistrict the county precincts according to population and expressing sorrow for the death of Hosea Foster and Mr. and Mrs. Lon Watson.

Other officers named at the convention were J. D. Webster, secretary, and Louise Evans Bruce, parliamentarian.

Delegates named to the state convention include Grady Hazlewood, Grady Fox, K. Burt Watson, C. I. Wall, Joe Gidden, Marion Bruce, R. Earl O'Keefe, R. D. Jordan, L. O'Brien Thompson, W. D. Campbell, O. H. Zuber, George Dowlen, Mrs. Donna Forbes, Charles Schmidt, J. M. Simpson, Jim W. Walker, Wayne Dammler, B. J. Grant, Hazel Kelly, Don Dean and Carroll Brown.

STATE RECOGNITION for Girlstown USA projects last year was given to the Canyon Jaycees at the state convention last week end in Austin. Delbert Turk, president, holds the trophy which was given the local club. Shown with plaques

National broadcaster, Bob Considine, delivered the keynote address at the convention and past Texas Jaycee president, Louis Timberlake, who is now a vice president for National Jaycees was a guest speaker.

Jim Antell, national US Jaycee president, spoke at the testimonial luncheon.

Included in the convention for Jaycee-Ette delegates were a tour of the governor's mansion, the state capitol building and a coffee hour with Mrs. Ben Barnes.

## Regents . . .

(Continued from Page 1) sion to seek a loan from the Office of Housing and Urban Development for construction of two new dormitories.

The two new geology courses, 331 and 332, will be in vertebrate paleontology.

For the least of University land, Shell Oil Company paid the University a bonus of \$20,000 for the four-year lease, which calls for \$1 per acre. Lease money will go for capital improvements on the University farm, according to Virgil Henson, financial vice president.

WTSU will make formal application with the Office of Housing and Urban Development for a \$2 million loan to construct men's and women's residence halls.

## Protest . . .

(Continued from Page 1) said the KA's Confederate Flag "must go".

When asked about the Confederate uniforms worn by the KA's, Puckrein said "If we take away the uniforms, we take away their civil rights to get our own".

"It's their right to wave the flag," he said, "but I don't think as Americans they really want to wave it."

Puckrein, who declared earlier last week the WTSU administration was composed of "racists" and that he could take them to court and take away their federal aid because of civil rights violations, said Thursday he had "changed attitudes" toward a number of issues.

"Violence will just get you in trouble," he told reporters. Law enforcement officers from Canyon, Tulsa, Randall and Swisher counties and the Texas Department of Public Safety were on hand Saturday for the announced demonstration.

## Country . . . . .

(Continued from Page 1)

FBI Director J. Edgar Hoover as "a militant youth group which receives support from the communist party and which in turn supports communist objectives and tactics."

Haille traced the history of the SDS and attacked what he referred to as the establishment. He said SDS started as an emotional thing and became a dynamic movement. He said it began by bringing white students to the south to work for civil rights.

One of the primary SDS concerns has been the war in Vietnam, said Haille. He referred to the assault on the Oakland Industrial Center and said a friend of his in SDS helped plan it. He said this was carried out during "stop the draft week."

Haille called students in this country second class citizens and declared that radicals have lost faith in there being any response from the "establishment" to dissenting voices. "We're not going to over-

throw them with violence but they're going to change," he said.

He said SDS is now focusing its attention on campuses across the country. "We want students to have some decisive role on campuses," he declared.

Haille was accompanied to Canyon by Martin Wigginton, billed as a former liberal Democrat closely associated with Texas government power structure.

Wigginton said he worked on Don Yarborough's staff for 12 months then he went to work for a Democratic Coalition designed to bring Latinos and Negroes together.

"That fell apart when Lyndon Johnson became President," he said. He said he worked variously for civil rights, Medicare and then in Austin for the War on Poverty. He practiced law

for 3 years. He said he chucked it all and entered his present endeavors. "I found out our approaches weren't getting any results," he told his listeners. "Liberalism wasn't getting any results."

"I'm a gut man. We've got a sick, sick country. We're leading everybody down the road to catastrophe."

"Racism, the war in Vietnam wasn't being faced up to."

He charged that liberals have been lying to each other. Wigginton said the civil rights movement became a black movement and there was no place left for him in it. So he has turned his attention to the student and peace movements.

He predicted that negotiations for peace in Vietnam will break down and said they are not based on reality.

He said the SDS must work with two groups for basic changes. These he listed as poor whites and the middle class. "Some of the middle class must go with us for change," he declared.

He said there must be a change in the academic and literary community.

"A lot is being done," he declared. "Hypocritical lives being led by some professors bother them at night and when they get drunk."

"We've got to open this country up to love," declared Haille. "When some changes are made we can get into a dialogue on what we want."

Both speakers hit the news media for what they termed biased reporting and suppression of news. They said the press is committed to "the establishment" and vested interests and there is no way to get at the facts about what is going on.

"How can a democracy exist without it?" asked Wigginton.

They charged that the press all but ignored a disturbance at Prairie A & M, an all Negro school, following the death of Martin Luther King. Their contention was that students had been mistreated through punishment and mass expulsion in the aftermath.

They cited other cases in which they alleged that facts were suppressed by the news media.

Haille said attention is being focused on the campus and declared that SDS is going to change the structure of the American University.

"Students do not have basic rights in the university," he declared. "There is no due process."

He complained that the universities are deeply immersed in business interests of this country.

"The American University is a fraud," declared Haille. "It is not in any sense an academic sanctuary. It is open to all kinds of intimidation. Students are being channeled, not stimulated. No other type of economic system can even be proposed. Tranquility is the key word. The American university does not have the consent of its governed. I've yet to see any student government that has the power to make decisions and see them carried out."

One member of the audience said West Texas State is run by fraternities.

"They're usually rich when they come in," said another member of the audience.

"They will go into the business world," Haille declared. Another member of the audience charged that Columbia, scene of recent student unrest and rebellion, was working on nerve gas.

"Genocide!" he concluded. A second meeting of the group was scheduled for Wednesday night.

over the same period. This is an increase of 137 percent. School officials say they expect enrollment to continue in growth.

School authorities this week released a pamphlet stating that based on the 1967 assessed valuation of the district of \$51,078,824, the annual cost to pay for the proposed bond issue would require a tax rate increase of 22 cents per \$100 valuation which represents an increase of about 16 percent.

Present indebtedness of the school district is \$2,268,000. The proposed bond issue would bring indebtedness ratio to total valuation to about 6.98 percent. The legal limit is 10 percent. The proposed bond issue would be paid off over a 19-year period.

Canyon school board decided in April to call a bond issue election for construction of a new building after Dr. Floyd Golden, Amarillo planning and survey consultant, advised against remodeling the present facility.

Dr. Golden said remodeling of the old building could cost about \$786,508 and still would leave the school system with an inadequate junior high school building.

He also advised the airconditioning of Rex Reeves. He said students learn about 20 percent faster in such buildings and that teachers do a better job.

He noted that in such a building few, if any, windows are needed.

"The actual structure costs less money," he said. "This offsets the additional cost of mechanical equipment. The maintenance of such a building costs about 50 percent less so that over a 10-year period you about break even on expense."

Dr. Golden said that in his estimation cost of remodeling the old building would be too expensive for the additional years of service which could be expected from it.

Plans have called for retaining the north wing of the present facility and tying in to any new structure which might be constructed.

Main section of the present junior high school facility was constructed in 1923. The south building was erected four years later.

Among other things, Dr. Golden said the acoustics throughout the main portion of the building are very poor. "Teachers trying to teach in a room below another class room find it difficult at times because of the noise," he pointed out in his report.

"The windows are steel framed and are anything but dust proof, since many of the sash that open are warped," the report continued.

Dr. Golden said no class room in the building meets the square footage requirements of a good class room.

"The building is what one would call 'worn out' from constant usage and deterioration over a long period of time," he declared.

He said some parts of the building even constitute a fire hazard. He found poor lighting and poor heating. He said some rest rooms are of sufficient size but fixtures in them are "worn out."

"The condition these buildings are in makes it impossible to keep them sanitary," the report stated.

## Agent Gives Wall Program

"Wall Finishes and Care" is the subject of a program and chart demonstration being given Becky Hall, home demonstration agent, during May. Mrs. Hall will present the program for each of the ten clubs of the county during the month. Special timely tips suggestions will be given by the home improvement leader.

Mrs. Hall is available to speak to other interested women's clubs when requested.

candidacy of present aspirants might be invalidated.

Brown said there should also be some changes in voter precincts so that they coincide with county precinct boundaries in such a way that there would be no overlapping. Brown said reapportionment should become effective Jan. 1, 1969.

Brown's suggested reapportionment would place three commissioner precincts in South Amarillo with the fourth precinct taking up the remainder of the county. All county roads would be in the fourth precinct and plans call for hiring a road superintendent.

At present there are 22,634 voters in the county. By precincts there are 8,019 in Precinct 1 represented by Commissioner B. R. Jones; 11,156 in Precinct 4 represented by Commissioner Bill Butler; 1,199 in Precinct 2 represented by Commissioner Clarence Beckman and 2,260 in Precinct 3 represented by Commissioner Glenn Dowlen.

Reapportionment is mandatory under a recent Supreme Court ruling.

In other business, commissioners accepted a bid of \$4,576 for laying sewer line across Fourth Avenue at 16th Street for the new court house annex. A bronze plaque bearing the names of county officials, contractor and architects was approved for the new annex building. The court held under advisement a suggestion that six outlets be provided for electrical clocks in the new annex.

The court accepted a low bid of \$1,230.35 with trade in on a new automobile for the Sheriff's Department. The bid was submitted by Plains Chevrolet of Amarillo.

A bid by Willborn Tank Company of Amarillo for two 6,000 gallon tanks and two gasoline pumps at \$2,599.05 was accepted. The tanks are being purchased by Precincts 3 and 4.

A bid of \$157.50 from Moore Business Forms was accepted for 25,000 voter registration forms for the tax assessor-collector's office.

A plat for the Lake Tanglewood development was also accepted.

be for the construction of a junior high school facility and the airconditioning of Rex Reeves Elementary School. Under the proposition passed Tuesday, interest rate, estimated at 5 per cent, would be \$684,500 for the 17-year period. This coupled with \$3,042,926 in outstanding debt makes the final total \$5,077,426.

The plan approved Tuesday is based on a 58 cent tax rate and on 95 per cent collections. Jacobs said a total of \$110,312 was owed the district in delinquent taxes which date back to before 1958.

If the issue passes Saturday, trustees will meet at 4 p.m. June 17 for sale of the bonds.

Plans now call for most of the board members, and representatives from the Canyon Chamber of Commerce and City of Canyon to fly to New York next month to obtain a favorable bond rating from investment brokers.

juries were not believed to be serious.

The second vehicle in the collision, officers said, was driven by Kenneth Patton, 20, Tulsa sophomore at West Texas State University. Passengers in the second car, none of whom were injured, included Mike Morey, Childress freshman; Boyd Miller, Tulsa freshman; Robert Thomas Mills, Cotton Center sophomore; and Ted McGee, Tulsa sophomore.

Investigating Texas Highway Patrolmen said both vehicles, which were in the southbound lane of the expressway, were heavily damaged.

Officers said the car driven by Mr. Bogan may have been coming northbound on the southbound lanes.

A further investigation of the accident is currently being conducted by local Highway Patrolmen.

Funeral services for Mr. Bogan will be conducted today, Thursday, at 4 p.m. in Amarillo's Boxwell Brothers Memorial Chapel.

Conducting services will be the Rev. Roy Wheeler, minister of the Paramount Terrace Christian Church in Amarillo. Burial will be in Llano Cemetery.

the delegation report convention approval 80 to 34.

More bickering erupted as Resolution Chairman Verlin Vaughn of Amarillo read off the first resolution which called for pledging Texas votes at the national convention to Favorite Son John Tower on the first ballot and then to California Governor Ronald Reagan "until such time as the Governor Reagan personally releases them."

"The ayes have it," Haley declared after a voice vote. Baird again called for roll call. This time the resolution carried 77 to 36.

Nine more resolutions were pushed through before there was more dissension. Resolution Eleven declared that Congress has not been meeting its responsibilities and called on the convention to urge Congress to prevent the usurping of legislative powers by the US Supreme Court.

One delegate asked how this could be accomplished.

While Beverly Dampf, Amarillo, a staunch Haley supporter was explaining that the Senate has restrictive powers in the appointment of Supreme Court justices, Brooks moved that the convention adjourn.

This motion was voted down 77 to 37.

In all, 17 resolutions were passed by the convention. Among other things, the delegates voted to endorse all Republican candidates. Voted support of Mrs. Audrey Bruse for tax assessor-collector of Randall County, David Clifton for county commissioner and C. N. Cosby for county judge.

Resolutions condemned the present administration for alleged evils ranging from a "no win policy in Vietnam" to federal give away programs.

Resolutions called for stricter law enforcement, dismissal and prosecution of federal employees engaging in riots, condemned trade with communist countries, advocated freeing of Cuba from communism and enforcement of the Monroe Doctrine, blasted "wild spending" by the administration and expressed opposition to a 10 percent income surtax, blasted the Supreme Court for alleged support of communists and called for outlawing membership in the communist party, condemned the Supreme Court for alleged banning of prayer in school, said the Office of Economic Opportunity wastes money and asked that the fight on poverty be left to free enterprise.

The final resolution passed by the convention placed the county's delegates to the state convention under the unit rule.

Fireworks popped again as Haley asked Chairman-elect Brooks to say a few words. Brooks evidently felt that Haley had chaired the convention in a high handed manner.

"I ran for county chairman to stop the kind of thing you saw here tonight," declared Brooks. "I will take over June 8 and we will run the party differently. We will not exclude anyone."

"I feel that Randall County will continue to be a stellar (Republican) county."

"I am one of the Reagan fans," Brooks went on. "I don't think we should have pledged our votes to him on the first ballot."

"We don't either," rejoined Dampf from the floor. "Or on the second ballot either," Brooks continued. "Only when they were released by Tower and the delegation thinks so."

Haley tiffed with Butler as he asked the county commissioner to say a few words.

"He might have a word for his Democratic candidate for mayor," said Haley.

"You have it wrong," said Butler.

"I meant candidate for judge," declared Haley as he relinquished the podium to Butler.

Haley was referring to the fact that Butler supported the appointment by commissioners court of which he is a member of Carroll Brown to the office of county judge upon the resignation in February of Judge P. H. Mulloy.

Butler rejoined that he supported someone qualified. "You got him in," declared Haley.

As Haley stepped back to the

## Code . . . . .

(Continued from Page 1)

of University Professors.

The code establishes guidelines for students conduct both on and off the campus. . . .

"Seemingly, serious students have neither the time nor the inclination for behavior of a questionable nature; however, when a student becomes involved in a disciplinary matter his academic record will weigh heavily in the proceedings."

Further stated by the preliminary guidelines is "Students of West Texas State University are temporary residents of the city of Canyon

and as such will find that their behavior off the campus will be judged by the same civic and state-wide standards as those governing the regular citizen of Canyon."

Among general rules and regulations concerning on-campus behavior are prohibitions against the possession or consumption of alcoholic beverages on campus or in University buildings, and prohibition of the misuse of drugs, narcotics, or hallucinatory agents.

All forms of hazing, including informal initiations, are prohibited, with hazing defined pursuant to the Criminal Statutes of the State of Texas.

Single freshmen, sophomore, and junior students are required

to live in University housing, with several specified exceptions. Single students who are seniors, graduates, or who are

21 years of age prior to the beginning of a particular semester may live in University housing or in off-campus housing of their choice.

The code calls attention to the fact that political organizations and their activities are governed by rules developed by the Board of Regents, Texas State Senior Colleges.

Stated within general rules and regulations off-campus, is the fact that "obedience to the law being a primary duty of the

citizen, the conviction of a student for violation of law renders him subject also to disciplinary action on the part of the University."

"Students who have been convicted of misdemeanors that come to the official attention of the University can expect to have their status at the University reviewed if their behavior has brought discredit upon themselves, their fellow students, or the University," the code states. "Any student convicted of a felony offense will automatically be subject to having his status at the University reviewed and may face disciplinary action in the process."

The code does state that students under indictment by a grand jury and have posted an appeal bond may remain in the University pending the verdict of their trial.

microphone he replied to the statement by Brooks that the party would be run differently after June 8.

Haley said the convention had a good illustration as to how the party would be run in the example at the convention by Precinct 20.

"Tactics will be ruthless," he declared.

"You are totally out of order," declared Duncan. "You have no right to make statements from the chair."

Duncan and Haley had disagreed earlier over voting procedures to be followed by Precinct 20.

Haley then spoke for several minutes before adjournment.

He called 1968 the "most critical year in our history." He said the Republican Party can oppose the destruction of "all we hold dear."

"This can only be accomplished by electing to office men of principal," he declared. Haley ended his speech by pledging all out support to Ronald Reagan.

Delegates named to the state convention include Haley, Mrs. Elizabeth Paxton, Beverly Dampf, Ralph Cooley, J. Ernest Stroud, Tom Bunnell, Lester Smith, Fletcher Sims, Mike Kelley and Gilbert Freeman.

Alternates include Mrs. Vella Larson, Nell Stroud, Leroy Hutton, Max Cooley, Warren Marshall, Bill Paxton, Mary Glaze, Mrs. Tom Bunnell and H. C. Linnen.

1/4 cup sugar  
1 Tbsp. salt  
1/4 cup oleo (1/2 stick)  
1 1/2 cup warm water  
2 pkgs. dry or cake yeast  
7 cups unsifted flour  
Scald milk and stir in sugar, salt and oleo. Cool to lukewarm.

Measure warm water into large warm bowl and sprinkle crumbled yeast on top, stir until dissolved. Stir in lukewarm milk mixture and half of the flour. Beat until smooth.

Stir in enough additional flour to make a soft dough. Turn dough out onto lightly floured board and knead until smooth and elastic, about 10 minutes.

Place in greased bowl, turning to grease all sides of dough. Cover and let rise in warm place, free of draft, until doubled in bulk (about 30 minutes).

Punch dough down and turn out onto lightly floured board. Cover and let stand for 15 minutes. Divide dough in half and shape each half into a ball. Place on greased baking sheets. Cover and let rise in warm place for about 30 minutes, until doubled again. Bake in 400 degree oven for about 20 minutes until done.

Glaze with one egg white and two tablespoons of water, beaten together. Glaze will cause bread to bake with extra crust. Spread on dough before allowing to rise final time and again just before placing in oven. Sprinkle with sesame or poppy seeds if desired.

**ARE YOU GOING TO VOTE FOR ANOTHER PATCHWORK EXPENDITURE FOR ONE OF OUR SCHOOLS PLUS SOME UN-NEEDED AND UN-WANTED AIR CONDITIONING FOR ANOTHER?**

**LET'S SEND THIS PLAN BACK TO OUR SCHOOL BOARD FOR A MORE REALISTIC CONSIDERATION AND A NEW PLAN WHERE WE ARE GIVEN A PRACTICAL CHOICE.**

## HAVEN'T WE BEEN GENEROUS?

A little over ten years ago, we were operating one school building which served first grade through high school. Since then we have built three elementary schools, a new high school and only about three years ago spent over \$50,000 on the junior high which is now proposed to be torn down. This support of our schools has left the property owners with a whopping debt of \$2,268,000.00 which will run until 1981.

## ARE WE ABOUT TO BE OVER RUN WITH KIDS?

Not so. At school board meetings the last two years, it has been confirmed that all five of these above mentioned buildings have unused classrooms. Although it's claimed that Randall County is one of the fastest growing counties in the nation, the fact is that our school enrollment is levelling off and for the past two years, due to the lowest birth rate since the depression, our first grade enrollment has declined and our junior high increased only 25 students this year to an enrollment of 686. Assuming that our junior high enrollment doesn't decline but continues at the present rate of increase, it would be past 1980 before we would fully utilize the building designed for 1,020 students.

## IS THE OLD BUILDING UNSOUND?

Not so. After years of neglectful maintenance on the old school it has become unattractive, but is still a structurally sound building. With good maintenance and little cost, this building could serve our children for a few more years. Yes we know it had termites but so did one of the new buildings and both are now under control by a bonded company.

## DO WE NEED ELEMENTARY SCHOOL AIR CONDITIONING NOW?

When this building is used extensively during the summer months, this question could be brought up. In the meantime, any local person realizes that due to our mild climate, cool nights and with daylight savings time it is not needed.

## WHO IS RESPONSIBLE FOR THIS INDEBTEDNESS?

You are, the property owner. Primarily the real estate property owner, for he can't hide his property and he can't take it elsewhere when taxes become burdensome. It is an indebtedness against your property and if not paid voluntarily, will be collected. This indebtedness would require well over 1/4 million dollars payment a year for the next 19 years. Can this be paid off with dollar and a quarter wheat and your hard earned dollars remembering additional city tax, county tax and national surtax have all been imposed on you this year?

**WE'D LIKE THIS BOND ELECTION DEFEATED TO ELIMINATE AIR CONDITIONING IN THE ELEMENTARY SCHOOL AND PUT OFF BUILDING UNTIL THE WAR IN VIET NAM IS OVER AND INTEREST RATES RETURN TO NORMAL.**

**PARENTS AND TAXPAYERS COMMITTEE, JOHN ALBERS, CHAIRMAN.**

# Amarillo-Canyon Race Set Saturday By Club

Records are expected to fall in both age divisions of the second annual Amarillo-Canyon Run, to be conducted Saturday afternoon under the direction of the Meteor Track Club of Canyon. All finishers in the event will receive awards.

The 10.5-mile footrace will begin at the Amarillo city limits on the west frontage road of the Canyon Expressway Saturday at 5 p.m. The finish will be at the Canyon city limits

near the Hunsley Hills Golf Course.

The run will be divided into age groups, 16 and over, and 15 and under. Both division run together, but are considered separately for awards purposes.

Last year's champions and record holders in each division have indicated that they will be on hand to defend their titles and go for new records.

Amarillo's Jim Beard, a fine high school miler, holds the older division and over-all records of one hour, 21 min., 31.0 sec. Frank Belcher of Canyon holds the younger division mark of one hour, 21 min., 31.6 sec, only a shade off Beard's pace. Belcher has

recently covered nearly 14 miles in this same time, so chances of new records appear to be good.

Although there is no special division for girls, the best time recorded by a girl last year was a fine one hour, 37 min., 15.0 sec. clocking by Lanita Witt of Panhandle.

The entry deadline for the run is Friday. The Meteor Track Club announced at mid-week that numerous entries had already been received.

Runners will be competing for a variety of reasons--some will run to win, while others will

run just to finish, but one young lady among this year's entrants explained that she is running because her father made her a \$10 bet that she couldn't do it.

A beautiful array of trophies for the top three finishers in each age group has been financed by the Canyon Kiwanis Club, Crow's Grocery, Cooper's Market, Taylor and Sons' Food Store, Elmer Sheen's Gulf Station, and the Lotaburger. All other finishers will receive medals. The top girl finisher will receive a special medal. Buck's Sporting Goods of Am-

arillo is furnishing a team trophy. This award is to be based on the top three finishers of each team, although there is no limit to the number of entrants each team may have.

Runners do not have to represent a team, however. Teams may be formed simply by entrants' indicating that they wish to be considered a team for purposes of the team trophy.

All entrants are requested to be at the starting point, which is the intersection of the Canyon Expressway and Bell Street in Amarillo, by 4:30 p.m. Saturday. This is thirty minutes prior to race time.

Entries are being accepted through Friday. They are being received through the Meteor Track Club, Box 474, Canyon 79015. Entry applications should include name, address and town, age, date and year of birth, name of team (if any), and a \$1 per person entry fee.

## Brush Control Methods Noted

Invasion of mesquite and yucca, commonly called baregrass, has depleted native grass on many acres of Randall County rangeland, according to Don Dolle of the Soil Conservation Service here.

Ranchers in the east section of the county should take positive steps to prevent the spread of mesquite, Dolle said, adding that many pastures near Canyon are heavily infested with yucca and are in need of control.

Brush left to run its own course will spread rapidly, robbing native grasses of moisture, nutrients and sunlight, he said. As the brush increases, the desirable native grasses decrease.

"When brush becomes a major problem, drastic brush control methods coupled with sound range use is the only way to maintain grass production," he said. "In some cases brush gets bad enough to starve out grasses and re-seeding becomes necessary after brush is removed."

The most popular method in this area of control for the mesquite, Dolle explained, is aerial spraying with a chemical application of 2,4,5-T. Spraying is done 40 to 90 days after the first leaves appear with one-

half pound 2,4,5-T in one gallon of diesel fuel and three gallons of water per acre.

"Root plowing or dozing are also being used," he said, "but are more expensive but at the same time are more sure. Where mesquite is scattered, spot spraying or grubbing should be done to prevent further infestation."

"Yucca is bad near Canyon," Dolle added, "and should be aerial sprayed with two-third pound of 2,4,5-T with one gallon of diesel fuel and three gallons of water per acre. Time of application is best just before bloom stage but not earlier than May 15 or later than June 30. The entire foliage should be covered."

After the control measures have been completed, the pasture should be ungrazed for at least 90 days during the growing season to promote natural revegetation by increasing the vigor of the existing grasses and permit desirable plants to produce seed and provide a feed reserve for fall and winter grazing.

"In some pastures prickly pear needs control," he declared. "Chemical control should be by hand spraying and cover the entire plant thoroughly. Spray anytime when the temperature is above 60 degrees and use the same mixture as mesquite or yucca."

Dolle said prickly pear can be grubbed anytime but all pads must be removed from the pasture because a pad can lay on the ground and when conditions are favorable, thorns become roots and a new plant is started. The entire crown must be dug out.

Anyone interested in improving his pasture by controlling brush should contact the local Soil Conservation Service office and discuss plans for control with local technicians.

Cost-share payments through the Agricultural Conservation Program are available for this practice, Dolle explained.

**"700 acres of PIONEER sorghum averaged 8,568 pounds for me."**

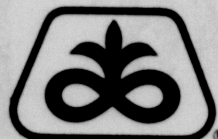

Elvin Wilson, Friona, Texas

Many of last year's bumper yields came from small acreages. But Elvin Wilson had 735 acres—all Pioneer hybrid 820—that averaged 8,568 pounds per acre.

Good weather, good farming and good seed boosted Elvin's yields. He double rowed on a 40" bed, watered four times in addition to pre-watering, controlled weeds with Propazine, and put on 280 pounds of nitrogen.

Hybrid 820 makes the most of his good farming—shades the ground fast, produces big yields, stands right up to harvest. Isn't this the kind of sorghum you want, too? See me soon.
